

PUBLICATION LIST**Johan Moan**

1. J.Moan: Trapped electrons in rigid polar solution. A study of recombination luminescence. *Ber. Bunsen-Gesellschaft Phys. Chemie.* 75, 668-672 (1971).
2. J.Moan: Det stabiliserte elektron. *Fra Fysikkens Verden* 2, 1-5 (1971).
3. J.Moan: Ionization processes in polar solution of tryptophan at 77⁰K. *Israel J. Chem.* 9, 637-643 (1971).
4. J.Moan and H.B.Steen: Photoinduced trapped electrons in rigid polar solution. I. A study of the recombination luminescence. *J. Phys. Chem.* 75, 2887-2892 (1971).
5. J.Moan and H.B.Steen: Photoinduced trapped electrons in rigid polar solution. II. Kinetics and cross section of two-quantum ionization. *J. Phys. Chem.* 75, 2893-2897 (1971).
6. J.Moan: The effect of electron scavengers on photo-produced electrons in ethylene-glycol/water glass. *Acta Chem. Scand.* 26, 399-401 (1972).
7. J.Moan: Effect of irradiation temperature on the yield of UV-induced trapped electrons in ethyleneglycol/water glass. *Acta Chem. Scand.* 26, 897-903 (1972).
8. J.Moan: On the intensity and time dependence of product yields in biphotonic processes. *Acta Chem. Scand.* 26, 4177-4178 (1972).
9. J.Moan: Trapped electrons in ethyleneglycol/water glass. Photo-induced conductivity and recombination luminescence. *Chem. Phys. Letters* 17, 565-568 (1972).
10. H.B.Steen and J.Moan: On the mechanisms of photobleaching of trapped electrons in ethylene glycol-water glass. *J. Phys. Chem.* 76, 3366-3372 (1972).
11. J. Moan: Photoionization in solid solutions at 77⁰K. Ionization potentials. *Chem. Phys. Lett.* 18, 446-450 (1973).
12. J. Moan: Recombination luminescence and decay of trapped electrons in UV-irradiated solution of tryptophan in ethylene glycol/water glass. *J. Luminescence* 6, 256-263 (1973).
13. J. Moan and O. Kaalhus: Spur effects on electron scavenging in an irradiated low temperature glass. *Int. J. Radiat. Phys. Chem.* 5, 441-451 (1973).
14. J. Moan: Excitation of electrons trapped in glassy ethylene glycol + water mixtures *Int. J. Radiat. Phys. Chem.* 5, 293-300 (1973).
15. J. Moan: Ultrahurtige prosesser, del I-II. *Fra Fysikkens Verden* 2-3 (1973).

16. J. Moan, M. Shirom and M. Weiss: Photoionization of ferrocyanide at various wavelengths in polar glasses at 77°K. *Israel J. Chem.* 11, 21-26 (1973).
17. J. Moan: Ultraviolet and X-ray induced recombination luminescence of L-tryptophan in low temperature polar matrices. *J. Chem. Phys.* 60, 3859-3865 (1974).
18. J. Moan and O. Kaalhus: Ultraviolet- and X-ray induced radicals in frozen polar solutions of L-tryptophan. *J. Chem. Phys.* 61, 3556-3566 (1974).
19. J. Moan: X-ray and UV-induced processes in frozen polar solutions of L-tryptophan. (Universitetsforlagets trykningsentral) (Doktorgrad, med innledning og sammenfatning) (1975).
20. J. Moan and B. Høvik: Electrons in shallow traps at 77K. *Chem. Phys. Lett.* 36, 120-122 (1975).
21. J. Moan and B. Høvik: On the photochemistry of radicals trapped in frozen methanol-waters mixtures. *J. Phys. Chem.* 79, 2220-2224 (1975).
22. J. Moan: On the photochemistry of X-ray produced radicals trapped in frozen ethanol matrices. *Photochem. Photobiol.* 22, 111-115 (1975).
23. J. Moan, Ken K. Ho and L. Kevan: On the temperature dependence of the recombination fluorescence of photoionized tryptophan in aqueous glasses: Consequences of electron tunneling. *J. Chem. Phys.* 63, 1285-1288 (1975).
24. J. Moan: Formation and decay of trapped electrons in frozen media. In: *Radiation Research, Biomedical, Chemical and Physical Perspectives*, Editors: O.F. Nygaard, H.I. Adler and W.K. Sinclair, Acad. Press, pp. 450-461 (1976).
25. Ken K. Ho, J. Moan and L. Kevan: Effect of photoionization energy on the initial decay rate of the electron - cation recombination fluorescence from tryptophan and phenolate ion in polar glasses. *Chem. Phys. Lett.* 37, 425-429 (1976).
26. J. Moan, H.B. Steen, B. Høvik: Effect of electron scavengers on the yield of electrons in shallow and deep traps at 77K. *Chem. Phys. Lett.* 38, 275-278 (1976).
27. J. Moan: On the decay of X-ray and UV-induced radicals in a methanol-water matrix at 113K. *Int. J. Radiat. Phys. Chem.* 8, 399-400 (1976).
28. J. Moan: On the photochemical behaviour of radiation produced trapped electrons in an alcohol/water glass. *Acta Chem. Scand.* 30, 6, 483-484 (1976).
29. J. Moan: Hurtige stråлиндuserte prosesser. *Naturen* 4, 167-174 (1976).
30. J. Moan and B. Høvik: On the geminate recombination of UV- and -produced electrons in a polar glass at 77K. *Chem. Phys. Lett.* 43, 477-480 (1976).

31. B. Bøckmann and J. Moan: On the decay of H and D atoms in aqueous sulphuric acid glasses. Isotope effects. *Chem. Phys. Lett.* 42, 575-577 (1976).
32. O. Kaalhus and J. Moan: An ESR investigation of scavenging yields in a -irradiated ethylene-glycol-water glass at 77K. *Int. J. Radiat. Phys. Chem.* 8, 417-424 (1976).
33. M. Kongshaug, J. Moan, B. Bøckmann and B. Høvik: Photobleaching of radiation induced trapped electrons in neutral and alkaline glasses. Hydrogen atom formation. *Chem. Phys. Lett.* 47, 2, 255-258 (1977).
34. J. Moan: On the photoionization of aromatic molecules in polar glasses at 77K. *Photochem. Photobiol.* 25, 591-592 (1977).
35. J. Moan: On the mechanism of radical formation during UV irradiation of polar solutions of aromatic molecules at 77K. *Acta Chem. Scand. A* 31, 281-286 (1977).
36. J. Moan: Hvordan celler reparerer stråleskader. *Naturen* 5, 205-208 (1977).
37. J. Moan: Lavtemperaturs eksperimenter i strålingsbiofysikken. *Fra Fysikkens Verden* 2, 33-37 (1977).
38. J. Moan: Biofysiske anvendelser av fluorescens- og fosforescens-spektroskopi. *Fra Fysikkens Verden* 1, 5-10 (1978).
39. T. Christensen, J. Moan, E. Wibe and R. Oftebro: Photodynamic effect of haematoporphyrin throughout the cell cycle of the human cell line NHIK 3025 cultivated in vitro. *Br. J. Cancer* 39, 64-68 (1979).
40. J. Moan and B. Bøckmann: Hydrogen atoms in X-irradiated acid ice. Scavenger effects. *Chem. Phys. Letters* 61, 486-488 (1979).
41. J. Moan, O. Kaalhus and B. Høvik: Photo- and radiation-produced H-atoms in acid low temperature glasses containing Fe^{2+} ions. *Chem. Phys. Lett.* 61, 481-485 (1979).
42. J. Moan and T. Christensen: Photodynamic inactivation of cancer cells in vitro. Effect of irradiation temperature and dose fractionation. *Cancer Lett.* 6, 331-335 (1979).
43. J. Moan, E.O. Pettersen and T. Christensen: The mechanism of photodynamic inactivation of human cells in vitro in the presence of haematoporphyrin. *Br. J. Cancer* 39, 398-407 (1979).
44. J. Moan and E. Wold: Detection of singlet oxygen production by ESR. *Nature* 279, 450-451 (1979).
45. B. Bøckmann and J. Moan: On the formation of trapped H-atoms and electrons in aqueous sodium perchlorate glasses. *Rad. Res.* 78, 317-320 (1979).
46. J. Moan, B. Bøckmann, M. Kongshaug and B. Høvik: Trapped hydrogen atoms in irradiated frozen solutions. Isotope effects. *Chem. Phys. Lett.* 65, 597-599 (1979).

47. T. Christensen and J. Moan: Binding of hematoporphyrin to synchronized cells from the line NHIK 3025. *Cancer Lett.* 9, 105-110 (1980).
48. J. Moan, B. Høvik and E. Wold: Two new methods of actinometry for EPR-measurements. *Photochem. Photobiol.* 30, 623-624 (1979).
49. T. Christensen and J. Moan: Photodynamic inactivation of synchronized human cells in vitro in the presence of hematoporphyrin. *Cancer Res.* 39, 3735-3737 (1979).
50. E. Boye and J. Moan: The photodynamic effect of hematoporphyrin on DNA. *Photochem. Photobiol.* 31, 223-228 (1980).
51. J. Moan: Biologiske virkninger av lysbestråling i nærvær av fargestoffer. *Naturen* 1, 11-16 (1980).
52. T. Christensen and J. Moan: Photodynamic effect on hematoporphyrin (HP) on cells cultivated in vitro. In: *Lasers in photomedicine and photobiology*, Pratesi, R., Sacchi, C.A. (Eds.). Springer series in optical sciences (Springer, Berlin, Heidelberg, New York) 22, 87-91 (1980).
53. J. Moan and T. Christensen: Bruk av porfyriner i diagnostikk og behandling av kreft. *Tidsskrift for Den norske lægeforening* 5, 271-273 (1980).
54. J. Moan, L. Smedshammer and T. Christensen: Photodynamic effects on human cells exposed to light in the presence of hematoporphyrin pH effects. *Cancer Lett.* 9, 327-332 (1980).
55. A.G. Kvello Stenstrøm, J. Moan, G. Brunborg and T. Eklund: Photodynamic inactivation of yeast cells sensitized by hematoporphyrin. *Photochem. Photobiol.* 32, 349-352 (1980).
56. J. Moan, H. Waksvik and T. Christensen: DNA single-strand breaks and sister chromatid exchanges induced by treatment with hematoporphyrin and light or by X-rays in human NHIK 3025 cells. *Cancer Res.* 40, 2915-2918 (1980).
57. J. Moan: A new method to detect porphyrin radicals in aqueous solutions. *Acta Chem. Scand. B* 34, 519-521 (1980).
58. J. Moan and T. Christensen: Porphyrins as tumor localizing agents and their possible use in photochemotherapy of cancer. A Review. *Tumor Res.* 15, 1-10 (1980).
59. T. Christensen, K. Feren, J. Moan and E. Pettersen: Photodynamic effects of haematoporphyrin derivative on synchronized and asynchronous cells of different origin. *Br. J. Cancer* 44, 717-724 (1981).
60. G. Volden, T. Christensen and Johan Moan: Photodynamic membrane damage of hematoporphyrin derivative-treated NHIK 3025 cells i vitro. *Photobiochem. Photobiophys.* 3, 105-111 (1981).

61. J. Moan and T. Christensen: Photodynamic effects on human cells exposed to light in the presence of hematoporphyrin. Localization of the active dye. *Cancer Lett.* 11, 209-214 (1981).
62. J. Moan and A.G. Kvello Stenstrøm: Effect of phosphate and chloride on the photodynamic inactivation of yeast cells. *Photochem. Photobiol.* 33, 761-763 (1981).
63. J. Moan and T. Christensen: Cellular uptake and photodynamic effect of hematoporphyrin. *Photobiochem. Photobiophys.* 2, 291-299 (1981).
64. J. Moan and E. Boye: Photodynamic effect on DNA and cell survival of human cells sensitized by hematoporphyrin. *Photobiochem. Photobiophys.* 2, 301-307 (1981).
65. J. Moan and E.O. Pettersen: X-irradiation of human cells in culture in the presence of haematoporphyrin. *Int. J. Radiat. Biol.* 40, 107-109 (1981).
66. J. Moan and S. Sommer: Fluorescence and absorption properties of the components of hematoporphyrin derivative. *Photobiochem. Photobiophys.* 3, 93-103 (1981).
67. J. Moan, H.B. Steen, K. Feren, and T. Christensen: Uptake of hematoporphyrin derivative and sensitized photoinactivation of C3H cells with different oncogenic potential. *Cancer Lett.* 14, 291-296 (1981).
68. J. Moan, T. Christensen and S. Sommer: The main photosensitizing components of hematoporphyrin derivative. *Cancer Lett.* 15, 161-166 (1982).
69. J.F. Evensen and J. Moan: Photodynamic action and chromosomal damage: A comparison of haematoporphyrin derivative (HpD) and light with X-irradiation. *Br. J. Cancer* 45, 456-465 (1982).
70. T. Christensen and J. Moan: Lys og kjemikalier - dobbel skade eller dobbel nytte. *Forskningssnytt* 6, 28-34 (1982).
71. T. Christensen, G. Volden, J. Moan and T. Sandquist: Release of lysosomal enzymes and lactate dehydrogenase due to hematoporphyrin derivative and light irradiation of NHIK 3025 cells in vitro. *Clin. Res.* 14, 46-52 (1982).
72. J. Moan, J.V. Johannessen, T. Christensen, T. Espevik and J.B. McGhie: Porphyrin-sensitized photoinactivation of human cells in vitro. *Am. J. Pathol.* 109, 184-192 (1982).
73. J. Moan, J.B. McGhie and T. Christensen: Hematoporphyrin derivative: Photosensitizing efficiency and cellular uptake of its components. *Photobiochem. Photobiophys.* 4, 337-345 (1982).
74. J. Moan, S. Sandberg, T. Christensen and S. Elander: Hematoporphyrin derivative: Chemical composition, photochemical and photosensitizing properties. In: *Porphyrin*

- Photosensitization, D. Kessel, T.J. Dougherty (Eds.) Plenum Publishing Co., 165-179 (183).
75. J. Moan, J.B. McGhie and P.B. Jacobsen: photodynamic effects on cells in vitro exposed to hematoporphyrin derivative and light. *Photochem. Photobiol.* 37, 599-604 (1983).
