

November 18-20 2019

**University of Oslo, Domus Medica 4, Rotunden
Oslo, NORWAY**

The 4th Turning the Tide of Antimicrobial resistance meeting will highlight recent progress in understanding mycobacterial pathogenesis, physiology, evolution, genome dynamics and antimicrobial resistance. A main part of the meeting is dedicated to machine learning relevant for these topics.

CONFIRMED SPEAKERS

Anne M. Dyrhol Riise
University of Oslo

Fredrik Almqvist
