

Advanced course in cytoreductive surgery for ovarian cancer

Oslo University Hospital & Akershus University Hospital, Norway
May 4th and 5th 2022

ABOUT THIS COURSE

COURSE PURPOSE

The thoroughness of cytoreductive surgery is the largest contributor to survival for patients with advanced ovarian and primary peritoneal carcinoma. This program is designed to provide information through formal lectures, panel discussions and cadaver dissection regarding the clinical applications of advanced cytoreductive surgery for ovarian cancer and related gynecologic peritoneal surface malignancies.

TARGET AUDIENCE

This activity is designed for gynecologic oncologists and surgeons who practice the specialty of gynecologic oncology and surgical oncology.

LEARNING OBJECTIVES

After completing the learning activity, the participant should be able to:

- Describe the prognostic impact of minimal residual disease achievable through advanced cytoreductive surgical procedures.
- Demonstrate a working and practical knowledge of upper abdominal and pelvic visceral and retroperitoneal anatomy.
- Formulate a strategic operative approach to advanced-stage ovarian cancer and implement appropriate patient selection criteria.
- Describe the critical steps in performing advanced cytoreductive surgical procedures in gynecology

COURSE FEE

7.500 NKR - The course fee includes both days of the course, course dinner Wednesday May 4th, shuttlebus from the dinner to recommended hotel and from recommended hotel to course venue as well as lunch both days.

ACCOMMODATION

Accommodation is up to the participant. We recommend [Scandic Hotel Lillestrøm](#) or [Thon Hotel Lillestrøm](#)

REGISTRATION

The course registration is limited to 12 attendees to ensure a focused learning experience. Participation will be on a "first-come-first-serve" basis. We therefore recommend registration as soon as possible, and no later than April 15th, 2022

May 4th
[Oslo University Hospital](#)
The Norwegian Radium Hospital
Auditorium in Building K
Institute for Cancer Research

May 5th
[Akershus University Hospital](#)
Sykehusveien 25
1478 Nordbyhagen
NORWAY

GUEST FACULTY

Christina Fotopoulou – MD, PhD
Department of Surgery and Cancer
Imperial College
London, United Kingdom

Oliver Zivanovic - MD, PhD
Director, Innovative Surgical Technology,
Assistant Attending Surgeon, Gynecology
Service, Section, Ovarian Cancer Surgery,
Memorial Sloan Kettering Cancer Center

COURSE DIRECTORS

Ane Gerda Zahl Eriksson - MD, PhD
Department of Gynecologic Oncology,
Division of Cancer Medicine,
The Norwegian Radium Hospital,
Oslo University Hospital

Erik Kjæstad - MD
Breast & Endocrine Surgery/General Surgery
Department of Gastrointestinal Surgery
Akershus University Hospital

Ala Jabri Haug - MD, BCh, BAO (Hons)
Department of Obstetrics and Gynecology,
Akershus University Hospital

OSLO UNIVERSITY HOSPITAL FACULTY

Tone Skeie Jensen - MD, PhD
Section Head, Department of Gynecologic
Oncology, Division of Cancer Medicine,
The Norwegian Radium Hospital,
Oslo University Hospital

Brynhildur Eyjolfssdottir - MD
Department of Gynecologic Oncology,
Division of Cancer Medicine,
The Norwegian Radium Hospital,
Oslo University Hospital

Yun Wang - MD, PhD
Department of Gynecologic Oncology,
Division of Cancer Medicine,
The Norwegian Radium Hospital,
Oslo University Hospital

Anthony Burton Mariathan – MD
Department of Colorectal malignancies,
Division of Surgery, Inflammatory Medicine and
Transplantation,
The Norwegian Radium Hospital,
Oslo University Hospital

PROGRAM

DAY 1 - WEDNESDAY MAY 4TH - AUDITORIUM, BUILDING K, NORWEGIAN RADIUM HOSPITAL

12:00 - 12:30	Registration
12:30 - 12:40	Welcome & Introduction - Eriksson
12:40 - 13:00	The Evolution of Debulking - Eriksson
13:00 - 13:40	Liver mobilization, porta hepatis and celiac axis dissection - Chi
13:40 - 14:00	Intrathoracic Cytoreduction - Chi
14:00 - 14:45	Lunch
14:45 - 15:15	Patient selection: Strategic Approach, including MIS evaluation and Fagotti score - Fagotti
15:15 - 15:45	Left upper quadrant - Zivanovic
15:45 - 16:15	Bowel Resections & Anastomoses - Eriksson
16:15 - 16:35	Coffee
16:35 - 17:05	Modified Posterior Exenteration/Radical Oophorectomy - Fotopoulou
17:05 - 17:35	HIPEC - Zivanovic
17:35 - 18:05	Palliative surgery - Fotopoulou
19:00 -	Course Dinner

DAY 2 - THURSDAY MAY 5TH - CADAVER LAB, A-HUS

09:00 - 11:45	Right Upper Abdomen and Chest <ul style="list-style-type: none"> • liver mobilization • diaphragm peritonectomy • Morison's pouch peritonectomy • diaphragm full thickness resection • cardiophrenic lymph node resection • non-anatomic wedge resection of liver • celiac axis, porta hepatis & gall bladder anatomy
11:45 - 12:30	Lunch
12:30 - 13:45	Left Upper Abdomen <ul style="list-style-type: none"> • total omentectomy & lesser sac anatomy • lesser omentectomy • splenectomy & distal pancreatectomy • partial gastrectomy (greater curvature) • multivisceral en bloc resection (partial transverse colectomy)
13:45 - 16:00	Pelvis & Bowel Resections <ul style="list-style-type: none"> • small bowel resection • right hemicolectomy • MPE/radical oophorectomy
