

Myocardial and ventricular work meeting

Time:

September 15th,
2025

Place:

Rikshospitalet A:
Seminarrom
A3.3067, Oslo
University
Hospital.

Registration:

[espen.remme@](mailto:espen.remme@medisin.uio.no)
medisin.uio.no

The noninvasive myocardial work method has received substantial interest after it was commercially released. This meeting will present some of the latest research including applications in valve disease, cardiac resynchronization therapy, pediatric cardiology, and development of a noninvasive pressure-volume method. Program will be available at:
