

UiO : **University of Oslo**

Anders Jahre's Awards for Medical Research 2014

The Jahre Lectures

Wednesday 15th October 2014 at 14.00-16.00 hrs
The Auditorium in the Research Building, The Norwegian Radium Hospital
The lectures are open to everyone.

Programme:

14.00–14.45 Professor **Kristian Helin**
Biotech Research and Innovation Centre, BRIC
University of Copenhagen, Denmark

Epigenetic targets in cancer

14.45–15.10 Break / Refreshments

15.10–15.35 Associate Professor **Rickard Sandberg**
Department of Cell and Molecular Biology, Karolinska Institutet, and
Ludwig Institute for Cancer Research, Stockholm, Sweden

Single-cell gene expression analyses reveal principles of allelic transcription in mammalian cells

15.35–16.00 Professor **Sampsa Hautaniemi**
Genome-Scale Biology Research Program
Faculty of Medicine, University of Helsinki, Finland

Analysis and integration of large-scale molecular and clinical data in cancers

Anders Jahre's Awards for Medical Research honor research of outstanding quality in basic and clinical medicine. The prizes are awarded by the University of Oslo and are among the largest within Nordic biomedical research.
