

Welcome to the 59th Contact Meeting of the Norwegian Bioscience Society (NBS)!

Mariano Barbacid, Spain

Past and future of
precision medicine in cancer

Maria Rescigno, Italy

Microbiota in cancer progression
and treatment

Jon Amund Kyte, Norway

Immunotherapy against
solid cancers

Susan Gasser, Switzerland

A life in chromatin:
understanding active
and inactive states

Ricardo Henriques, UK/Portugal

Super-resolution and machine-
learning for cellular bioimaging

Graca Raposo, France

Lysosomes and related organelles,
extracellular vesicles and human
skin pigmentation

Christophe Leterrier, France
Nikon Lecture

The axonal cytoskeleton
down to the nanoscale

Christine Mayr, USA

The location of protein synthesis
in the cytoplasm controls protein
conformation and protein function

Pawel Burkhardt, Norway

The evolutionary origin of
neuronal signaling machinery
and animal cell differentiation

The 59th NBS

Contact Meeting 2024

Storefjell Resort Hotel, Gol 

Save the date | January 18 - 21, 2024

Deadlines

Early bird: 17th of November 2023

Abstract: 1st of December 2023

Late registration: 15th of December 2023

The Organizing Committee, NBS division Oslo

Anne Simonsen (chair), Helene Knævelsrud and Tore Skotland (co-chairs),

Tone Berge, Trine B. Haugen, Pooja Kumari, Kirsten Sandvig, Kay Oliver Schink, Pål Kristian Selbo
