PUBLICATION LIST

Johan Moan

89. J.F. Evensen, J. Moan, J. Hindar and S. Sommer: Tissue distribution of $^{3}$H-hematoporphyrin derivative and its main components, $^{65}$Ga and $^{131}$I-albumin in mice bearing

115. S. Sommer, C. Rimington and J. Moan: Porphyrin derivatives having physical and chemical characteristics similar to those of the active component of hematoporphyrin derivative and with very strong photosensitizing effects. Photochem. Photobiol., B: Biology 1, 241-246 (1987).

229. Li-Wei Ma, Johan Moan, and Kristian Berg: Evaluation of a new photosensitizer, meso-tetra-hydroxyphenyl-chlorin, for use in photodynamic therapy: a comparison of its

424. A.Juzeniene, P.Juzenas, L.-W.Ma, V.Iani and J.Moan (2006) Topical application of 5-
aminolevulinic acid, methyl 5-aminolevulinate and hexyl 5-aminolevulinate on normal 

fluorescence diagnosis and cancer treatment: Pharmacokinetics and photosensitizing 
efficiency in nude mice bearing WiDr carcinoma. Medical Laser Application 21 (4), 
271-276.

430. A.C.Porojnicu, T.Eid Robsahm, A.Dahlback, J.P.Berg, D.Christiani, Ø.S.Bruland, 
J.Moan (2006) Seasonal and geographical variations in lung cancer prognosis in 
Norway. Does Vitamin D from the sun play a role? Lung Cancer (in press).

photosensitizers in butter detected by fluorescence spectroscopy and multivariate 
curve resolution. J. Agric. Food Chem. 54, 10197-10204.

predictor of cancer survival. Sun-induced vitamin D may be involved: A possible role
