

OSLO UNIVERSITY HOSPITAL AWARDS FOR EXCELLENT RESEARCH

Excellent Researcher Award and Early Career Award

Nomination form and CV: email to post.forskning@ous-hf.no **within 1 March 2021**

Nomination criteria:

Both awards

- Any field of research
- The candidate must be an active researcher, not retired, but otherwise any age
- The candidate must be employed by Oslo University Hospital
- Significant journal articles must be affiliated to Oslo University Hospital
- The researcher must have continued research plans at Oslo University Hospital
- The prize should be used for further research at Oslo University Hospital
- Both peer-nominated and self-nominated candidates will be considered

Excellent Researcher Award

- Recent research track-record and profile which identify the candidate as a leader in his/ her field(s) of research
- Contribution to strengthening of research environment at Oslo University Hospital

Early Career Award

- 2-7 years of experience after completion of PhD and scientific track record showing great promise (any age). Justified career breaks due to parental leaves and sick leaves will extend the seven year restriction.¹

Evaluation Criteria:

- Both awards: Scientific excellence, i.e.: peer evaluation of scientific quality and impact²
- Excellent researcher award: contribution to strengthening research environment at Oslo University Hospital

Evaluation Committee:

Oslo University Hospital's Scientific Advisory Board (SAB). If the number of nominees is substantial, the Oslo University Hospital's Research Committee will select candidates for the SAB's final evaluation.

Nomination form and standard CV (mandatory): next pages

¹ Early career award: Det må ha gått maksimalt syv år fra disputasdato til søknadsfristen, dvs. disputasdato i perioden 1.3.2014-1.3.2019. Tidligere disputasdato enn 1.3.2014 kan aksepteres dersom det skyldes fratrekk for lovbestemte permisjoner eller sammenhengende fulltids og/eller deltids sykefravær, som tilsvarer minst åtte ukers fulltidsfravær og som har funnet sted etter disputasdato. Det skal henvises til datoer for slikt fravær. Dokumentasjon vil ev. kunne etterspørres dersom fraværet er hos annen arbeidsgiver enn OUS. Fravær fra forskning for å arbeide med klinisk spesialisering er ikke fratrekksgrunn. Tid brukt til klinisk arbeid/spesialisering teller ikke negativt - komiteen er bevisst forskjellen mellom heltids- og deltidsforskere.

² Consider the value and impact of all research outputs (including datasets and software) in addition to research publications, and consider a broad range of impact measures including qualitative indicators of research impact, such as influence on policy and practice, <https://sfdora.org/read/>
